"I have been familiar for many years with the fine work that the Greeley Company has done for consulting with hospitals and their medical staffs on bylaws, regulations and governance. Most recently, our healthcare system experienced a critical staffing shortage for our Credentialing Verification Organization (CVO). I reached out to The Greeley Company and learned that they had interim staffing resources that could help. The credentialing specialists they sent us were extremely professional, competent and productive. Their skill level would certainly be described as 'expert' and the result of their work was to help us clean up our application backlog and reduce our turn-around time to a 'best practice level.' Our team has been delighted to work with them, and we have also sought out their suggestions on improving our processes. I would definitely use this service again."

—Barbara Kaplowe, MHSA, CPHQ, FACHE, CPMSM, Director, Credentialing Verification Organization (CVO), Hartford HealthCare
